

I have enjoyed and support the **DO NOT CALL** list in the state of Indiana.
Since signing up the number of harassing call has been reduced significantly.
Do not weaken this law

I believe since I am paying the cost for my phone service I should have control over who is allowed to use it **at my expense**. Since I have to pay all the service cost and taxes they have no right to utilize my service to their benefit!

If I did not pay for this phone service like TV and Radio and it was furnished by the soliciting companies, then I would agree, they would have the right to solicit via the phone service they supply.

Otherwise they do not deserve to be allowed to solicit at my cost!

Sincerely

Kenneth W. Shurboff
